

JA World Remote Learning Program

A partnership of Junior Achievement of South Florida & Community After School

Eligibility & Fees

This program is **only available** for students who are enrolled with Broward County Public Schools.

The prices are **per Session** (Session = 5 weeks) and is based on your household income. Fees will be charged on a weekly basis. If you qualify for the reduced pricing on the sliding scale, proof of income will be required by submitting the first page of your tax return. If there has been a major life event (such as loss of job) since that tax return, please indicate in registration form to inquire about additional assistance. Documentation of that life event will be required to qualify (letter of termination, etc.).

For the fall semester, three 5-week sessions are available. **Weekly registration is not available, students will be registered for the full session, but fees will be charged weekly, due the Wednesday before the week begins.** Fees include the full day (7:30 am – 5:30 pm), partial day fees are not available. Students enrolled in each Session will have until the end of the 3rd week to confirm their registration for the next Session. If not, their spot will not be reserved. **If Broward County Public Schools reopen during a Session, prorated refunds will be issued and/or rates may change if program changes to Hybrid model (students in school only a few days a week).**
