

EDUCATION FOR EVERY DIMENSION OF LIFE

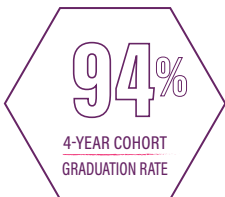

3DE SCHOOLS ARE THRIVING

42% fewer chronically-absent students on average compared to host school peers.

71% of 3DE student cohorts outperformed their peers scoring proficient or above on state end-of-course assessments.

94% four-year cohort graduation rate, which is a 34% increase since launch of 3DE.

87% of 3DE college enrollees persisted through spring 2020, 7% higher than the national average.

VISION

To systemically re-engineer high school education to expand economic opportunity for all students.

WHY

Designed to solve for barriers to opportunity:

Addressing Universal Needs Across Education

- Bringing relevance & application across content
- Integrating industry in systematic ways
- Lifting competencies for competitiveness

Addressing Structural Inequities in Education

- Providing access to in-demand careers
- Fostering school stability through engagement
- Building culture of inclusionary instruction and individual value

HOW

Competency-based Case Methodology

Students learn through real-world experiences to develop competencies for competitiveness, while increasing in-class engagement, discovering individual value, and accelerating academic comprehension.

This comprehensive approach unlocks the creative capital of educators and fosters the behaviors, skills, and mindsets that drive student access and opportunity.

OUTCOME

3DE schools provide all students equitable access to high quality education through learning that meets the values of today's students and demands of the future economy.

As a result 3DE schools are increasing:

Engagement & Graduation Attainment
consistent increases in graduation rates and decreases in chronic absenteeism

Academic Comprehension & Proficiency
consistent outperformance and growth in majority of core academic subjects

Competitiveness & Opportunity
broaden opportunities available and increases in post-secondary persistence
